**DETAILED ACTION**

***Election/Restrictions***

Applicant's election with traverse of Group II in Paper No. 5 is acknowledged. The traversal is on the ground(s) that Group II teaches a golf ball with ink. This is not found persuasive because since the examiner would have to search embodiments of different scope and searches, the search for Group I and III would include areas directed to the claimed transfer foil, which is not in Group II.

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hirukawa et al. (JP11139095).

Hirukawa et al. (JP11139095) teaches a pattern directly printed on a surface of the golf ball body (See page 1, paragraph 0001), the pattern being defined by an ink containing a polyurethane having a hydroxyl value (See page 1, paragraph 0008) of less than 0.2 and a coloring agent (the ink) and a clear coat (see page 2, paragraph 0024) formed over the pattern and the ball body surface.

Art Unit: 2854

Hirukawa et al. doesn't teach a polyurethane having the claimed molecular weight.

However having a hydroxyl value having a weight-average molecular weight of 20,000 to 60,000 would be obvious through routine experimentation to determine when the quality is best.

### ***Conclusion***

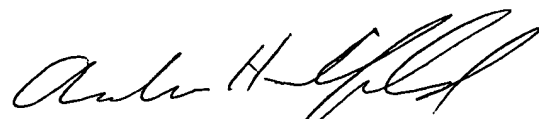

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marvin P. Crenshaw whose telephone number is (703) 308-0797. The examiner can normally be reached on Monday - Friday 7:00-4:30.
